New Rules - Pets

Beginning with this scenario, your house will have new furry friends. Open the package labeled “Scenario 15”—it contains all the **pet tokens**.

- ✓ **Pets** have a type (cat   or dog  ) and a size (big   or small  )
- ✓ During setup, add **pets** to each room as shown (any illustration that matches the **pet's** type and size is fine)
- ✓ Rooms can contain any number of **pets**     (in any type/size combination), and **pets** do not take up object slots
- ✓ On your turn, you now have some new options for your action:
 - Move 1 **pet** from one room to another
 - Add 1 new **pet**
 - Remove 1 **pet**
 - Swap a **pet**, with either:
 - A **pet** of the same type but different size or
 - A **pet** of the same size but different type
